EDUCATION

Master of Science (Tech.) studies, Aalto University, School of Science, 2/2011-1/2014

Degree Programme of Information Networks

Major: Human-Centered Information Systems, minor: Dynamic Visual Design in New Media (Aalto ARTS)

Exchange Studies, University of Patras, Greece, 9/2011-1/2012

Bachelor of Science (Tech.), Aalto University, School of Science, 2007-2011

Degree Programme of Information Networks

Major: Interaction and Media, minor: Knowledge Intensive Business

Matriculation examination, Olari Upper Secondary School, spring 2007

WORK EXPERIENCE

Kemira, Master's thesis worker, 5/2013-1/2014

Thesis topic: Improving project management system in R&D with Human-Centered Design. I researched project managers and project management system in R&D with three human-centered methods; contextual inquiry, questionnaires, and idea workshops.

Nord Software, UI Designer, part-time, 4/2012-5/2013

I created usable and functional user interface designs, and turned them into prototypes with Justinmind Prototyper. I also reviewed user interfaces from usability point of view, and ideated concepts. Being the only UI/UX specialist in the company, I worked mostly independently but in interaction with software developers.

Aalto University, Department of Media Technology, Research assistant, 5/2011-8/2011

On research projects related to emotions and 3D, I conducted subjective testing, recruited participants, and analyzed qualitative data.

Vaisala, Giant Leap -intern, 6/2010-9/2010

My project was to map and analyze competitors in the field of meteorology. I participated in creating a joint internal competitor portal, and provided training and training material for the portal.

Sun Microsystems, Summer trainee, 6/2008-7/2008

My responsibility was to design the structure of a new intranet according to users' wishes. I created and edited it with Joomla! I also provided training for the users.
